## Message from our Founder

With great pleasure, I welcome you to the world of Elleco Engineering Enterprise (EEE). We have been successful in delivering landmark projects through our customer's continued trust and our professionalism. We are forever grateful to our mesmerizing team of talented individuals for their endless support and dedication in the past and the present as we unfold the future together. I should also thank our associates, whose well-esteemed experience and cutting-edge technological knowledge contribute to our achievements and the quality of services.

We have a customer-centric approach to understanding the needs of our clients, which has led EEE to excel as a leading Construction, Fit-out & MEP services provider in the state of Qatar. As one of the frontrunners in Qatar, EEE enjoys a diverse workforce hailing from all over the world. This has placed us in an advantageous position where knowledge and experience are exchanged. It is our aim to fully utilize these experiences and achieve a level of synergy that allows us to properly be a leader of change in Qatar and beyond.

At the core of today's dynamic business world, the key success factors are the availability of multinational and multilingual project teams and a highly-skilled workforce coupled with state-of-the-art management systems for planning and execution to empower the teams to deliver successful projects. Recognizing the responsibility bestowed on me as the GM, I am constantly evaluating operational efficiencies to ensure best value-for-money for our customers and enhancing shareholder value.

Throughout the following pages you will be able to appreciate EEE's capabilities and services offered, as we aim to take a leap into the future by expanding our sectoral and geographical reach.

# Our History

**ELLECO ENGINEERING ENTERPRISES** was established in 2017 to service the emerging market demand, as well as to provide outstanding customer service to our valuable clientele in a professional, efficient, and skillful manner.

Heating, Ventilation and Air-conditioning (HVAC)  
Tunnel Ventilation Services  
Plumbing & Drainage Services  
Fire Protection & Fire Fighting  
Specialist Fire Suppression Systems  
Electrical Power Distribution  
System

District Cooling Plants  
Water Treatment & R O System  
Data Centers  
Soaker System  
Misting System Low Voltage  
Auger System Fire Alarm  
LPG System

All types of ELV/Low Current Systems Earthing & Lightning Protection Waste Water  
Management System  
Water Features  
Irrigation &

Within a few years from our launch, we have proven our ability to execute sizeable and complex projects. We delivered the projects on time, but most importantly with maintaining the best quality standards which we are committed to provide in all our endeavors and at all levels of the Organization.

**ELLECO ENGINEERING ENTERPRISE (EEE)** continues to grow with steady momentum, delivering high quality projects. Since 2013 EEE has secured various high-profile projects in the market.

Our focus is to further improve the performance & competitiveness of our core MEP contracting activity to build sustainable business model for all the Stake holders.

Lead by a loyal team of professionals and with the tremendous support of our parent company, we have proved that we can rise to the challenge and excel in our performance and satisfy our clients.

Our Team is focused to deliver on promises with Trust, Confidence, Teamwork, Commitment, Accountability and collaboration. These ethics propelled ELLECO to accept and meet formidable challenges of a fast-growing self-reliant economy.

**At ELLECO ENGINEERING ENTERPRISES,** we strongly believe in talent retention, training and development of our Staff and workforce to improve performance, productivity, and Innovation as well as to ensure maintaining a high level of client satisfaction.

# VISION AND MISSION

“To become regional market leader in MEP Construction Industry, providing engineering excellence to our valued client, through commitment in delivery of best practices in corporate governance and transparency, we aspire to be the service provider of choice to our clients and be the employer of choice for our staff”

Our vision Statement drives us to achieve the following:

## INNOVATION

- To create a corporate culture that will set us as a model MEP Contractor.
- To strive to be the best by adopting a dynamic and unique approach in dealing with our clients.

## TEAM WORK TO QUALITY

- Committed to Quality, Health, Safety and Environmental issues through Integrated Management System.
- Committed to our workforce and staff to ensure they will have one of the best working and living conditions.
- Committed to retain and train our workforce and staff.

## TRUST & CONFIDENCE

- To gain clients trust & confidence by delivering projects on time and as per project requirements.
- To be the employer of choice for our staff & be the service provider of choice to our Client.

# EEE VALUES

## PROFESSIONALISM

- To be a premium MEP contractor and service provider in Qatar and GCC.
- To stay ahead of our competitors by investing in Human Capital & Knowhow.
- To ensure service level, value addition and targeted work is benchmarked.

## INTEGRITY

- To add value to our clients, by forming strategic alliances with them and the major MEP suppliers to deliver products & solutions that are of high quality and workmanship.
- To maintain trust and confidence of our clients, suppliers and workforce.
- To continuously provide professional training to our staff and workforce to improve their performance.

## COMMITMENT

- To the Environment
- To Health & Safety
- To Quality
- To attract and retain gifted & honest employees and to create a friendly, secure work environment.

# QHSE

## POLIC STATEMENT

At Radiant Engineering Enterprises, we are committed to enhance customer satisfaction and improve the business by providing quality MEP services, which includes but not limited to comprehensive services to a full spectrum of MEP building systems including supply and installation, testing and commissioning as well as warranty services and maintenance Among the MEP systems that we cater for are Electrical, Extra Low Voltage , HVAC, Plumbing, Drainage and Fire Protection systems.

Top Management is committed for, implementation of Integrated Management System by providing suitable resources and participation of workers in the management review and in the site walk through. We shall achieve this by:

- on time completion of quality service, first time and every time, thereby sustaining and improving our business through customer satisfaction.
- Understanding and meeting the Needs and Expectations of all the Interested Parties.
- Effective implementation of Integrated Management System and demonstrating continual improvement in all our QHSE processes.
- Ensuring all the activities are carried out in a manner intended to prevent injury, ill health, unsafe practices and environmental preservation.
- Promoting prevention of pollution and waste minimization in all work-related activities.
- Reduction of our impact on the environmental and health by reducing emissions, effluents discharges/wastes and improve efficient use of natural resources and energy.
- Develop and maintain a competent workforce capable of implementing this policy and ensure that this policy is effectively communicated to all personnel working with or on behalf of the company and to all interested parties.
- Complying with all relevant Environmental, Health & Safety Legal and other requirements.

## FIRE SAFETY POLICY

Elleco Engineering Enterprise recognizes and acknowledges its responsibility to take general and specific precautions, so far as reasonably practicable, of its employees and anyone else potentially affected by its undertaking against Fire and the effects of Fire.

The aim of this Policy is, therefore, to provide a robust fire safety framework which will be implemented to secure the safety and wellbeing of everyone and to protect our assets, which shall be achieved by: -

Clearly defining roles and responsibilities that confirm our resolve in preventing or minimizing the risk from fire.

Affirm our commitment to have in place control measures that adhere to fire risk assessment and comply with the Regulatory and Statutory requirements.

Implement proactive fire safety engineering controls, measures, inspections and rules that can prevent the causes of fire.

To create and maintain suitable and enough fire risk assessments of all our premises and project sites.

To have proactive liaison with the local fire and rescue service including effective arrangements for notifying the fire and rescue service.

To conduct regular fire evacuation drills and testing of emergency equipment.

Preparation and implementation of Fire Safety Management plan and procedures that specifies the arrangement to implement, control, monitor and review fire safety standards and to ensure that these are properly maintained.

Establish and maintain a system for reporting fire incidents, including near misses and false alarms and, when necessary, inform relevant stakeholders and enforcing agencies.

# EMERGENCY COMMUNICATION POLICY

Elleco Engineering Enterprise has in place systems and procedures to help the company to respond to significant emergency situations promptly and effectively.

The purpose of this policy is to establish and delineate the responsibilities and procedures that Radiant Engineering Enterprises will use to communicate to staff and employees during an emergency.

Develop and implement response, recovery and business continuity plans as required.

Prepare, train, and exercise response team members to ensure they respond effectively to an emergency

Acquires and maintains equipment necessary to ensure an appropriate response to any event

Provides a framework for enhancing Radiant operations in a disaster  
Mitigates the long-term effects of an emergency on Radiant operations and mission.

Management of risk as an integral part of its operations, implementing strategies to minimize threats to the achievement of organizational goals and objectives

Collaborate and cooperate with key partners and governmental organizations to review and disseminate communications materials.

Establishing and maintaining communication among departments and projects as well as with external partners being the highest priorities in any incident.

# WELFARE

## ADHERENCE POLICY

Elleco Engineering Enterprise (EEE) recognizes all its employees and subcontractors to be the most valuable resource and that the health and welfare of all employees including our subcontractors.

EEE is committed to produce a caring and supportive working environment which is conducive to the welfare of all employees and subcontractors, and which enables them to develop towards their full potential through a framework within which to:

Ensure employees and subcontractors understand the company's commitment to health and wellbeing leading to a safe and healthy working environment.

Embed a safe practice for health and wellbeing throughout the organization.

Ensure that dignity of employees and subcontractors is protected throughout their recruitment, employment, vacation and repatriation.

Ensure that workforce is free from discrimination/harassment. Ensure that any kind of human right violations is not allowed.

Ensure that workforce including subcontractors receive equal pay for equal work in timely manner.

Ensure to comply with fair employment policy and treat all employees irrespective of their nationality, ethnicity or religion.

Ensure training, development and education to promote individual success and increase overall value to the organization.

Inspiration and encouragement for a high level of employee morale through recognition, effective communication and constant feedback.

# ASSOCIATED COMPANIES

# Company Profile

---

EEE design started in Qatar as a company for interior and architecture, eventually emerged into a company specialized in interior design and execution in the year of 2017 and evolved into fit-out works and luxury interiors

# Our History

ELLECO ENGINEERING ENTERPRISES was established in 2017 to service the emerging market demand, as well as to provide outstanding customer service to our valuable clientele in a professional, efficient, and skillful manner.

# VISION AND MISSION

*"To become regional market leader in **Fitout Works** Industry, providing engineering excellence to our valued client, through commitment in delivery of best practices in corporate governance and transparency, we aspire to be the service provider of choice to our clients and be the employer of choice for our staff"*

Our vision Statement drives us to achieve the following:

# Our Services

Interior architectural design in EEE is a concept that focuses on components or elements of a structure. EEE DESIGN focuses on the visual and function of the structure. it's design works to create a space that flows with it's surroundings. may it be more concerned with decor, soft furnishings and scale projects, may it be also concerned with larger projects involving technical as well as artistic and aesthetic skills.

All export and import processes and activities are covered by EEE TRADING. The EEE TRADING firm purchases goods in one nation and markets them in Qatar using its own distribution network. work mostly with big product production volumes in a variety of markets.

EEE CONTRACTING requires assets that are specific to the commodity produced on both sides of the transaction. EEE's main contracting business are fit-out, kiosks, architectural, gypsum works, carpentry works, aluminum works, marble & MEP works .
